

Chapter 2

Rhythm Review

Instructions

On completion of Chapter 2:

- A 6-second rhythm strip will appear.
- Identify all complex components of the rhythm strip:
P waves, PR intervals, QRS complexes, ST segments,
T waves, QT intervals, one cardiac cycle, and a 6-second
heart rate.
- Press the *down* arrow or *left* click on mouse to see correct
answer.
- If you had an incorrect answer, please review Chapter 2.
- Return to the rhythm and try again.

Identify all P waves on this strip. Press *down* arrow or *left* click on mouse for correct answer.

© Jones & Bartlett Learning.

Identify heart rate of this strip. Press *down* arrow or *left* click on mouse for correct answer.

© Jones & Bartlett Learning.

© Jones & Bartlett Learning.

By six second method: 8 QRS complexes x 10 = heart rate of 80
By division method: 300 divided by 3 large and 4 small boxes
(3.8 large boxes) = heart rate of 78.9
